Consultancy-led support for better project outcomes.

We are pleased to introduce ADICON ENGINEERING PROJECTS PRIVATE LIMITED as a professionally managed engineering advisory and project consultancy organization focused on enabling better project outcomes across industrial, infrastructure, and real estate sectors.

Our approach combines engineering judgment, planning discipline, design coordination, and practical project insight to help clients reduce uncertainty, improve decision-making, optimize cost, and reduce delay at critical stages of project development and execution.

With multi-disciplinary experience across civil, mechanical, electrical, HVAC, and HSE domains, we support clients with advisory inputs that connect concept, design, procurement, execution readiness, and on-ground coordination.

Headquartered in Delhi-NCR and operating with a Pan-India outlook, Adicon continues to evolve as a consultancy-led partner for complex engineering decisions and project delivery support.

- **April 2002**
Began as ADICON PROJECTS
- **February 2003**
Moved into private limited status
- **March 2020**
Renamed ADICON ENGINEERING PROJECTS PRIVATE LIMITED

Civil · Mechanical · Electrical · HVAC · HSE

Experience and systems thinking, side by side.

Er. Aditya N. Pande

Principal Advisor

Professional Engineer (PE)

BE - Civil

PGPCBM (NICMAR)

PGDPM (MIT)

PGPHSE (UPES)

MBA - Infrastructure Management

With more than three decades of experience in engineering, consultancy, and execution, Aditya N. Pande provides the firm with deep domain judgment across industrial, power, automotive, residential, and infrastructure projects. His experience spans value engineering, project coordination, execution strategy, and advisory inputs across complex civil, mechanical, and industrial assignments. As the senior advisory anchor, his extensive experience strengthens our strategic guidance, technical evaluation, and overall project insight.

Professional Memberships: Engineering Council of India, National Safety Council, Indian Green Building Council, Indian Building Congress, Indian Road Congress, Indian Concrete Institute, Project Management Institute, American Society of Civil Engineers.

WHAT WE DO

Engineering advisory and project delivery services.

Engineering Advisory

Project Management Consultancy

Design Review & Coordination

Owners' Engineer Support

Technical Due Diligence

Project Planning & Monitoring

Cost Review & Value Engineering

Execution Readiness Assessment

HSEQ Review & Compliance Support

Industrial , Infrastructure & Real Estate Consulting

ADVISORY CAPABILITIES

Delivering deep capability, decision support, and execution intelligence across every project phase.

Project Strategy
Early-stage advisory support for project definition, scope alignment, risk identification, and execution approach.

Design & Technical Review
Review of civil, structural, mechanical, and MEP considerations to improve constructability, coordination, and cost efficiency.

Planning & Monitoring
Structured support for timelines, milestone tracking, dependency mapping, and progress visibility.

Value Engineering
Identification of practical alternatives that improve efficiency without compromising quality, safety, or performance.

Project Controls
Decision support through cost awareness, schedule logic, technical review, and issue escalation visibility.

Execution Interface
Bridging advisory recommendations with site realities, contractor coordination, and implementation readiness.

MISSION & VISION

Practical, affordable advisory — built on trust.

MISSION

To provide stakeholders with practical, affordable, and high-value advisory services through engineering insight, project management discipline, and commitment to excellence in quality, safety, and speed.

VISION

To be recognized as a leading engineering advisory and project consultancy company known for values, ethics, and commitment to quality, safety, and speed.

TRUST VALUES

T

Transparency

Availability of full information required for collaboration, cooperation, and collective decision-making.

R

Respect

Respect for the dignity, role, and contribution of every individual and stakeholder.

U

Understanding

Alignment around requirements, expectations, and practical goals before decisions are made.

S

Sincerity

Integrity, accountability, and ethical conduct in every engagement and responsibility.

T

Teamwork

Willingness to work together across disciplines to achieve meaningful project outcomes.

Responsible project governance in every engagement.

- ✓ Identifying, assessing, and controlling HSEQ risks arising from activities, products, and services.
- ✓ Supporting safe and healthy working conditions for the prevention of work-related injury and ill health.
- ✓ Encouraging compliance with legal requirements, client requirements, standards, and best practices.
- ✓ Promoting hazard elimination, preventive thinking, and responsible project governance. Encouraging consultation and participation of workers, representatives, and key stakeholders.
- ✓ Ensuring competence of personnel acting for or on behalf of the company.
- ✓ Providing support for effective implementation of quality, safety, and environmental management systems.
- ✓ Coordinating proactively with clients, consultants, contractors, and relevant authorities.
- ✓ Using proactive and reactive review mechanisms to evaluate compliance and improve performance .
- ✓

Specialized Engineering Facilities

SELECTED PROJECT EXPERIENCE

A selection of recent engagements demonstrating our engineering understanding, sector exposure, and advisory impact.

 Ultratech Cement Limited

- Construction of Pond Ash and Limestone Storage System (Hotgi Cement Works, Solapur, Maharashtra).
- Project Management and Advisory Services for cement silo, bulk loading, and allied structures (Birla Super Bulk Terminal, Doddaballapur, Bangalore).
- Project Management and Advisory Services for clinker silo, roller press building, and allied structures (Arakkonam Cement Works, Tamil Nadu).

 Century Panels Limited

- Project Management and Advisory Services for MDF plant, lagoon, road, and wood yard with allied structures (Green Field Project CPL, Gopavaram, Badvel, YSR Kadappa).

 Matrix Life Science Pvt. Ltd.

- Consultancy and advisory services (Paithan Aurangabad unit).

(REPRESENTATIVE EXECUTION EXPERIENCE - ER. ADITYA N. PANDE)

- | | |
|--|--|
| > 786 MLD Treatment Plant at Worli | > 40 MGD Sewage Treatment Plant at Delhi |
| > Durgapur Steel Plant Modernisation Projects at SAIL-Durgapur | > Civil and mechanical work for LTMS project HUL |
| > Factory shed projects for Mahindra & Mahindra and Endurance | > Aluminium and zinc refinery projects for Aditya Aluminium and Hindustan Zinc |

A core hub, with specialist spokes engaged as needed.

Each engagement is led by a core advisory team with project coordination, technical review, quality inputs, and client reporting responsibilities. Specialist associates are engaged as needed for domain reviews, execution-interface support, and periodic technical audits.

Statutory, Corporate & Operational Identity

Field	Details
